Looking for an position as Junior Producer or Associate Producer

After 6 years of work as Project Manager in the mechanical industry, I decided to retrain in the video games industry, following the "Mastère Management des jeux vidéos" at the Gaming Business School in Lyon. As part of this training, I am looking for a position as Junior Producer or Associate Producer.

Work experiences

Since 2014 **Project Manager (Full time contract), ROBATEL INDUSTRIES, Genas (69)**

Robatel Industries is a small company of 150 employees, specialized in engineering and boiler making projects in the nuclear industry.

Multi-Projects management (between 4 and 6 at the same time) from the signature of the contracts to the end of the projects in the nuclear industry:

- ✓ **Responsible for the global vision of the projects, and the goals achievements** (on time, technically, financially and contractually).
- ✓ **Management of the project activities and resources:** internal departments, human and material resources dedicated to the projects (hiring when necessary), on-site activities.
- ✓ **Cross-disciplines stakeholders management:** subcontractors and suppliers tracking (≈ 30), monthly meetings with the customers and joint-ventures, contractual meetings.
- ✓ **Schedule driving**, tracking and progress reporting for each project
- ✓ **Issues solving** with the project team
- ✓ **Costs and amendments management**, CAPE tracking
- ✓ **Financial, technical and contractual negotiations management**
- ✓ **Project Post Mortem management** and improvement of the company's processes
